

Stony Point Cuttlefish Snorkel

This unique shore based snorkel lets you get up close to hundreds of giant Australian cuttlefish that come to the rocky coastline near Whyalla to breed. You get a great look at these amazing creatures in clear, shallow water.

LOCATION

Near Whyalla,
South Australia

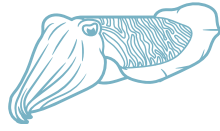

DEPTH

1-2 Meters

TEMP

12-14°

FEATURE

DIFFICULTY

Easy - but very cold

VISIBILITY

Visibility is 4 – 10 metres but you are so close to the cuttlefish you won't notice if it is on the low side

GETTING THERE

Whyalla is in the mid north of South Australia, 385km from Adelaide. Your best option is to drive yourself there or join a tour from Adelaide to see the cuttlefish.

Even once you get to Whyalla, the snorkel site at Stony Point is 30 minutes from the township.

LOOK FOR

- 100's of Cuttlefish
- Seals
- Dolphins

BEST TIME TO SNORKEL

This is a seasonal event. The cuttlefish start arriving in the Spencer Gulf waters during May and their peak numbers can be seen in June and July.

We found mornings are the best time to view the cuttlefish. By the afternoon, a breeze can stir up the water.
