

Muiron Islands Snorkel

If you are looking for a quiet, shallow snorkel spot on Ningaloo Reef, South Mandu is perfect. Best done outside of low tide, the dense corals here come right to the water's edge. The snorkelling area is a short walk from the carpark. South Mandu is a great spot for beginners who want to see lots of colourful fish without venturing into deeper water.

LOCATION

Muiron Islands,
Ningaloo Reef,
Exmouth, Western
Australia

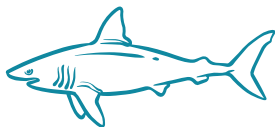

DEPTH

3-10 Meters

TEMP

22-28°

FEATURE

DIFFICULTY

Medium

You will need a boat or tour to access to the water, watch for possible currents

GETTING THERE

Tours to the Muiron Islands depart from Exmouth. depending on the conditions, it is a 75 -90 minute cruise to the islands which are 25km north of the Exmouth Peninsula. We departed from the Bundegi Boat Ramp.

Along the island we anchored but in the channel it was a drift snorkel with the boat picking us up at the end. Water entry and exit is from a boat with ladder/platform.

LOOK FOR

- Dolphins
- Turtles
- Reef Sharks
- Manta Rays
- Stingrays
- Dugongs
- Clown Fish
- Fish

BEST TIME TO SNORKEL

Good any time of year. It does get very hot (35 degree plus) from October to April.

Low swell and light winds will make the trip to the islands more comfortable. Tour operators will not go out in bad conditions and will know the best spots to snorkel/dive depending on the conditions.
